**Redding Reloading Equipment Adds
New Die Sets for 450 Bushmaster**

Cortland, NY..... Redding Reloading Equipment introduces a new die set in 450 Bushmaster for 2018. They will be available in a 3 die configuration with a FL Sizing Die, An Expander Die and a Seating Die with included taper crimp. While originally intended for military and LE, CQB use the cartridge has found favor in a variety of hunting disciplines from feral hogs to whitetails and black bears. A wide variety of bullets are available making this cartridge even more versatile in a handloaded form. Although it was originally intended for MSR type platforms the versatility of the cartridge has now moved it into the realm of production bolt guns as well.

Redding continues to add cartridges to its standard product lines as consumer demand and industry support grows. It is also important to note that Redding continues to produce truly "Custom" die sets as well. The Engineering Group at Redding requires only a chamber reamer drawing or 5 fired cases from the firearm in question to quote the production of dies for virtually any caliber and firearm which can be made with a 7/8 x 14 TPI die body. Prices are quoted on an individual basis depending upon the complexity of the chambering and any need for tooling. Those seeking dies for a truly unique or obsolete cartridge should contact the Redding Custom Die Center in the company's Engineering Department. E-Mail: engineering1@redding-reloading.com>
